---

## WORK EXPERIENCE

**Peer Tutor** - Fanshawe College School of IT

*January 2025 - May 2025*

- Provide academic support to students in programming courses including C#, Java, and database concepts
  - Explain complex programming concepts in clear, understandable terms
  - Help students debug code and develop problem-solving strategies
- 

## PROJECTS

### Web Application Development

**StreamHub** - Multi-Platform Live Stream Viewer

*React, Vite, Tailwind CSS, Twitch API*

[streamhub-b8q.pages.dev](#) | [GitHub](#)

- Built a responsive web application enabling users to watch multiple live streams simultaneously from Twitch, YouTube, and Kick
- Designed dynamic grid layout system that automatically adjusts based on number of active streams with collapsible controls
- Deployed using modern web technologies including React 19.1, Vite build tool, and Tailwind CSS for styling
